Company Why Bee Good? It's all about being good

- The product range all include honey, beeswax and propolis harvested from British Bees, all of which have strong anti-viral, anti-microbial and anti-inflammatory properties, complemented by the best of British plant oils
- Our product portfolio contains six products including: Lip Balm, Face (Cleaner, Moisturiser & Cleansing Water) and Body (Intensive Repair Cream and Hand Cream)
- Development - Design - Manufacturing - ALL are 100% BRITISH
- Bees are critical to our ecosystem. Without bees there would be no fruits/vegetables. In the UK only 8 species of bees are commonly found while 2 species are already extinct! Bee Good will donate at least 1% of profits to British beekeeping causes
- Natural products enjoy high margins; Bee Good is the only British premium skincare brand to exclusively use British bee ingredients in all its products

Consumer Thinking and Marketing Strategy

- The global personal care industry is valued at \$300bn, growing by 4.5% annually, “Natural” category is worth \$25bn and is THE fastest growing category in this sector (Source CTPA)
- Consumer behaviour has become very dynamic. Today, small means nimble, being flexible and openly able to embrace consumer insights - quickly
- Consumers are increasingly preferring brands that have an ethos and is one they can connect to
- You cannot get more “Natural” than honey & local “Made in Britain” is back
- Distribution through major and premium UK retailers, TV shopping channels, www.beegood.co.uk.

- Business enjoys good margins and initial profits will be put back into developing the brand and community building
