Innovation Agri-Tech Group (IAG) is a British agricultural technology company providing a cutting-edge solution to the traditional challenges of farming.

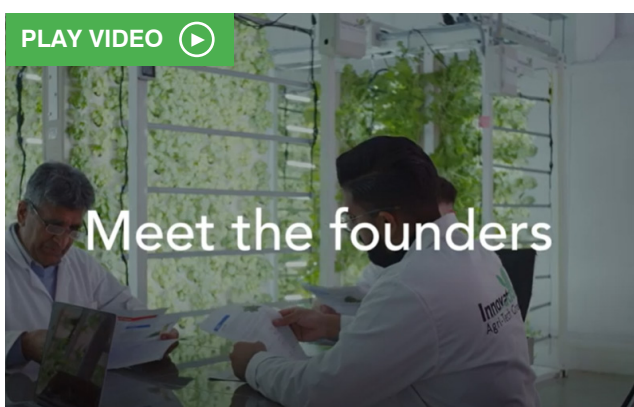

We anticipate a return on investment to be many multiples within three years and expect to float on the London Stock Exchange or NASDAQ via IPO. Other exits include management buyback, private equity investment or strategic M&A deals.

Investment in farm tech has grown 370% in the past 7 years

The Global food shortage: With population projections of 10 billion by 2050, crop yields will need to increase by over 60 per cent to meet future food demand.

The Solution: Innovation Agri-Tech Group (IAG) is a British Agri-tech company providing end-to-end solutions to farm without the need for sunlight and soil whilst using up to 95 per cent less water.

- Ocado are investing £17 million in the space
- British government has committed to spending £90 million to the Transforming Food Production Challenge
- Agri-tech start-ups already raised \$24bn globally by mid-2021
